Instructions to Authors

Manuscripts: Only original papers written in English which have not been accepted for publication elsewhere will be considered and should be sent to Prof. Dr. *H.E. Kaeser,* Neurologische Universitätsklinik, Socinstrasse 55, CH–4000 Basel (Switzerland). The editors reserve the right to improve the English language and make corrections accordingly and if necessary return it for re-writing to the author. The size of the manuscript (including tables, illustrations and references) is limited to 12 printed pages at 2,800 letters per page, punctuations and spaces between words included. If this size is exceeded, it will be necessary to charge the author SFr. 125.– per additional printed page. The manuscripts should be submitted in duplicate (with two sets of illustrations or photocopies of the originals), typewritten on one side of the paper only and double spaced with a wide margin.

Title page: The first page of each paper should carry the title (main title underlined), the authors' names and the name of the institute where the authors have conducted their research work. A short title for use as running head is also to be provided.

Abstract: Each paper must have an abstract of not more than 10 lines.

Key words: A list of 3–9 key words for indexing purposes should be given by the authors.

Small type: Paragraphs which can or must be set in smaller type (case histories, test methods, etc.) should be indicated with a 'P' (petit) in the margin on the left-hand side.

Footnotes: They should be avoided. If essential, they appear at the bottom of the respective page and must be numbered consecutively.

Tables and illustrations: Tables (numbered in Roman numerals) and illustrations (numbered in Arabic numerals) should be prepared on separate sheets. They must have a heading or a legend respectively. For the preparation of blocks, good drawings and original photographs should be submitted; negatives cannot be used. If possible, several illustrations should be grouped on one block for reproduction (max. size 113 × 176 mm). The full cost for all colour plates must be borne by the authors.

References: The list of references should include only those publications which are mentioned in the text. They must be arranged alphabetically and numbered consecutively. The following indications are necessary:

a) *Papers published in periodicals:* 1. Authors' surnames with initials of first names; 2. Full title of paper; 3. Journal abbreviation; 4. Volume (in Arabic numerals, underlined and followed by a colon); 5. First and last page; 6. Year of publication in brackets. Example: Collins, P.; Marshall, J., and Shaw, D.A.: Social rehabilitation. Geront. clin. 2: 246–256 (1960).

b) *Books:* 1. Authors' surnames with initials of first names; 2. Full title; 3. In brackets, name and domicile of publishers and year of publication. Example: Bränemark, P.-I.: Intravascular anatomy of blood cells in man (Karger, Basel 1971).

Full address: At the end of each manuscript the exact postal address complete with postal code of the senior author must be given. Should requests for reprints be handled by someone other than the senior author (co-author) it should be indicated accordingly.

Galley proofs: They will be sent to the first named author unless otherwise indicated. Corrections should be restricted to typographical errors.

Reprints: The senior author will receive 100 reprints without cover of each paper free of charge. Order forms complete with a price list for additional reprints will be sent with the galley proofs.

For further details on the preparation of manuscripts authors may consult our leaflet 'Rules for the Preparation of Manuscripts'. This may be obtained free of charge from the Publishers S. Karger AG, Arnold-Böcklin-Strasse 25, CH–4011 Basel (Switzerland).
